CREATING ENVIRONMENTS OF POSSIBILITY

Revolutionary Acoustic Threat Detection (ATD)

Exceptional accuracy gives you the confidence to tackle threats quickly. Each individual sensor has the ability to detect and locate threats immediately.
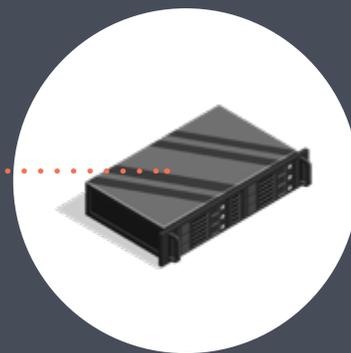

How ATD
Works

DETECT AND LOCATE THREATS IMMEDIATELY

Monitor activity and receive rapid alerts to real-time tracking information through your existing access control system.

There are no limitations to the number of sensors you can install to ensure no threats go undetected.

With a camera attached to every sensor, you'll never respond to a threatening situation blindly. Our agile surveillance cameras have a wide range of motion so that you never lose sight of a threat.

Safer with Sight: Camera Solutions for Every Setting

Protection
Any Time, Any Place

LIVE IN THE MOMENT, WHEREVER YOUR DAY TAKES YOU.

Alert your team to threats with real-time data on your control system so you can make quick and informed response decisions. When a gunshot is heard, our cutting edge technology identifies the location of the threat.

Why Choose
ATD?

Peace of Mind
You can't be everywhere at once, but ACOEM ATD can be. Give your first responders eyes and ears in the field around the clock so your community knows you are always watching out for them.

Smarter Security
Hearing a gunshot is not enough. Our surveillance cameras give you the ability to see the threat your community is facing so that you never respond to a threatening situation blindly.

Speed
Be in the know the moment a threat arises. ATD detects and locates gunshots to allow you to take control of the situation before it escalates.

Accessbility
Affordable and versatile, ACOEM ATD has a solution for everyone. Secure public establishments of all types and sizes whether they're indoors or outdoors.

Reliability
Power your security system with military-proven protection you can depend on. With the same AcoustiSense technology we've been using to protect service members on the combat frontlines for the last 25 years, using AcoustiSense will ensure your community is in good hands.

Work, relax, live, and learn worry-free

Whether you're exploring downtown, learning in class, enjoying a concert, or hard at work, we know creating safe spaces for people to engage is crucial to maintaining flourishing communities that we call home.

About **acoem**
Creating environments of possibility

In today's fast–moving world, the environment is increasingly impacted.
The Acoem Group is committed to sustainable development
and help companies and public authorities limit their environmental impact
by offering products and services that:
– Prevent and control air, noise and vibration pollution;
– Increase the productivity and reliability of industrial machinery;
– Contribute to the development of effective, robust & noiseless products;
– Protect soldiers, sites and vehicles in military theaters of operation.

The Acoem Group is based in Limonest, France, and has 17 subsidiaries
and offices around the world. The Group generates an annual
turnover over €100 million and currently employs 750+ people globally.
